پرسش های رایزنی و پاسخ دانشگاه از روند پذیرش ارشد، دکترا و فوق دکترا:

Dear

I hope this helps

1. How long does the visa process take? Is it possible to complete it in two months, or will it remain in process until next year? This depends on the student case and the issuing authority (roughly two weeks). We issue the letter once the student is admitted.

2. Does the institution provide its own accommodation? If so, is it available for both single and married individuals?

Information on residences and the costs are on the website: Student Accommodation | University of Pretoria ([up.ac.za](http://up.ac.za))

3. How many days a week does a student have to attend when doing the PhD/MA program? None. There are no classes, students liaise directly with their supervisor, this can all be done virtually.

4. Which fields of study are available? Departments | University of Pretoria ([up.ac.za](http://up.ac.za))

5. What documents are required? For an application you require a passport, full official academic records, a saqa certificate or at least the application with SAQA. Admission will only be finalised when the certificate is obtained.

#### 6. Postdoctoral Research

Postdoctoral Research Fellows are candidates who have completed their doctoral degree studies and are developing their careers as academic researchers in particular fields of research under the supervision of seasoned academic researchers. The postdoctoral fellowship programme at UP draws candidates from all over the world who make an indispensable contribution to research productivity and enhances the University's international profile. Funding for the programme is provided by the University of Pretoria as well as by external funders such as national organisations, international funding organisations and corporate companies.
